

Imperial Global Antifreeze Light-Duty Diesel & Gasoline Engine Coolant

Description: A premium quality ethylene glycol based antifreeze concentrate, designed to meet stringent corrosion protection requirements in all automobiles and light duty trucks.

Performance: Imperial Global Antifreeze provides 5 years or 150,000 miles of maximum protection when a complete cooling system flush and fill is performed. Meets ASTM D3306 and ASTM D-4340, as well as the performance requirements of General Motors GM6277M (DEX-COOL®). Imperial Global Antifreeze and coolant is both Silicate-free and Phosphate-free for use in Japanese and European vehicles respectively.

Applications: Imperial Global Antifreeze engine coolant is a concentrate designed to be mixed with clean water - it is not pre-diluted product. Compatible for use in all automobiles and light duty trucks regardless of make, model, year or original antifreeze color. Recommended where enhanced rust and corrosion protection is a requirement.

Typical Properties:	Appearance	Yellow
	pH (1:1 vol% solution)	7.5-10.0
	Freezing Protection, °F	
	50% (1 Part A/F 1 Part Water)	-34
	Water, Wt. %	5.0 Max.
	Reserve Alkalinity (As Received)	Report
	Specific Gravity, 60/60 °F	1.115-1.124
